## For Mercy Home Care – North Iowa, MileageTraks GPS Fleet Management is “Just What The Doctor Ordered.”

“We are very pleased that we implemented MileageTraks\* and **we are seeing some impressive results,**” says Connie Morrison, Director of Mercy Home Care – North Iowa.

“MileageTraks is helping us in a number of ways. The most significant benefit is our increase in productivity. We are now able to see the big picture in real time, identify inefficiencies and correct them. **We are enjoying 19 additional billable monthly visits per RN, generating an additional \$1000 monthly for each RN.** This is substantial.

**Our RN’s have fully embraced MileageTraks. In the past, they struggled when they completed their mileage reports.** Often they were not kept current resulting in wasted time and estimated miles that were not accurate. Now, **IRS compliant information is generated automatically.** Each employee has their individual login providing for mileage verification. At times, our employees must travel to difficult areas. For safety purposes, they like the fact that we know where they are.

The **automated trip reporting saves time and money.** Our RN’s are saving a daily average of 22 minutes, reducing our over

time payroll expense by **\$400 monthly per employee.**

**We have also experienced a mileage reduction of 7%.** Everyone is mindful of taking a more direct route and we can identify employees that need coached in this area. Additionally, we are now confident that we are **only paying for mileage in accordance with IRS guidelines eliminating non-compliant personal miles.**

**MileageTraks has also helped us administratively.** Nell, our Billing Specialist downloads MileageTraks data on demand. The automated and accurate documentation of patient visits saves her significant administration time, and allows us to submit claims faster, **improving cash flow.**

When we looked at all of the benefits that MileageTraks brings, and the fact that **we only have to save 2 miles daily per employee to pay for the system, it became a very easy choice for Mercy Home Care – North Iowa.”**
